

Technical and Scientific Conference

Agenda

A. First Day (31st of January 2018)

Accommodation in the hotels and participants registration since 14:00.

15:00 Launching the Energas 2018 conference

I. Alternative sources of natural gas acquisition

- 15:15 – 15:45 Possibilities to introduce biomethane into a gas distribution system (PGNiG)
- 15:45 – 16:15 Biogas as a component for biomethane production - experiences in biogas plants' construction within the wet and dry fermentation technology (Gascontrol CZ)
- 16:15 – 16:45 Biomethane – biogas upgrading technology (Bright Biomethane)
- 16:45 – 17:15 Full clearing chain in Energy units within the area of small scale LNG (PGNiG)
- 17:15 – 17:45 Coffee break
- 17:45 – 18:15 LNG deliveries to the end users and emergency situation deliveries (Gascontrol Polska)
- 18:15 – 18:45 Vehicle Fueling – New Generation Compact (Chart Ferox)
- 18:45 – 19:15 Perspective of pre-mining methane production from hard coal seams in Poland (PGNiG)
- 19:30 Dinner

B. Second day (1st of February 2018)

8:55 a.m. Beginning of the 2nd day of Energas 2018 Conference

II. Gas pipelines operation and protection

- 9:00 – 9:30 Defining the explosion hazard zone on high pressure pipelines (GAZ-SYSTEM)
- 9:30 – 10:00 Liquidation of leaks on gas networks utilizing composite materials as an alternative to traditional methods (NRI)
- 10:00 – 10:30 Utilizing BSL within transmission infrastructure control (GAZ-SYSTEM)

- 10:30 – 11:00 Anticorrosion protection of protective pipe – line pipe system using Casing Filler technology (Anticor)
- 11:00 – 11:30 Coffee break
- 11:30 – 12:00 3-layers anticorrosion coating for steel pipelines welded joints protection (Anticor)
- 12:00 – 12:30 Issues of insulating of the field welded joints on pipelines with factory 3LPP coating (Canusa)
- 12:30 – 13:00 Trenchless technologies in gas industry (ZRB Janicki)
- 13:00 – 13:30 T.D. Williamson hermetic works – LOCK-O-RING® PLUS fittings within the UDT guidelines (T.D. Williamson Polska)
- 13:30 – 15:00 Lunch Break, visiting the Presidential Castle (for previously registered conference participants)

III. Innovation in gas industry

- 15:00 – 16:00 Development and innovation in gas fittings industry branch (Armatury Group)
- 16:00 – 17:00 DRYFLEX – innovative gasket for natural gas (Spetech)
- 17:00 – 17:30 Modern solutions for the transport and storage of line pipes as part of the implementation of line investments (Dhatec)
- 17:30 – 18:00 New diagnostic possibilities for gas pipelines (Energodiagnostyka)

IV. 18:00 – 18:45 Panel session: Diversifying the natural gas deliveries on the basis of alternative resource (Baltic Pipe Project, LNG, biomethane, CMM/CBM)

- 20:00 Gala dinner

C. Third Day (2nd of February 2018)

9:25 Beginning of the 3rd day of Energas 2018 Conference

V. Energetyczne wykorzystanie gazu ziemnego

- 9:30 – 10:00 LNG regasification combined with energy production on the basis of Stirling's engine (ITC)
- 10:30 – 11:00 Utilization of waste Energy on gas compressor's station (ITC, GAZ-SYSTEM)
- 11:00 – 11:15 Coffee break
- 11:15 – 11:45 Utilization of ORC system on the basis of given gas compressor's station (GAZ-SYSTEM)
- 11:45 – 12:00 Summarizing the Energas 2018 Conference
- 12:00 Lunch

Displays: Hermetic works on medium and low pressure gas pipelines (FASTRA)
